## Gear & Garage

### ViGi MT-DR9

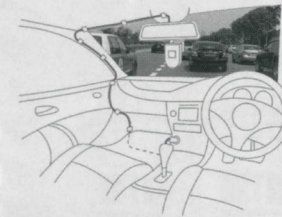

The ViGi MT-DR9 is designed to be your eyewitness on the road by providing superior circumstantial evidence day and night for the unexpected incidents. It can also act as an overnight car surveillance camera or a home surveillance camera when used with optional accessories.

Thanks to its high-resolution 1/3 CCD image sensor, the MT-DR9 is able to record during the day and at night with superb clarity. In addition, its viewing angle has also been widened from 90 to 110 degrees.

The MT-DR9 can record up to 110 hours with date and time stamping and supports up to 32GB SD/SDHC memory cards. There is also a feature that allows it to record 10 seconds should power be cut off.

- Other features include:
- Auto start/stop with engine ignition
- 360-degree mounting
- LCD screen for instant viewing
- Vibration detection mode

[At all ViGi authorised dealers, \$439 per unit, [www.vigidrive.com](http://www.vigidrive.com)]

### COAT IN HEADLAMP

Headlamps are crucial, as they are more exposed to age and oxidation and harsh weather conditions during driving. The new Headlamp Protection Kit from advanced Japanese resin with the D.I.Y. pack allows you to apply a pair of new headlamp coatings.

### AUTOART VYX

The Autoart VYX is a three-piece kit suitable for 19- and 20-inch applications. Available in a range of available colours and is designed to provide a customisable PCD and offsets.

[Available only at Autovox, 19-20-inch from \$1,100, tel: 6475...]
